

CHALK PRINT

CAMP FIRE AT HOME ACTIVITY

Materials:

Chalk (more colorful the better)
White Paper (printer paper is best)
Container that can fit paper flat
Place for paper to dry
Something to scrap chalk

STEP BY STEP

1. Fill the tub with water (an inch at the bottom of the tub will work)
2. Choose chalk and firmly scrap chalk dusting into the water. Switch colors as you wish. Dusting should float on top.
3. Mix the colors as you wish with a stick or skewer, be gentle but quick to make sure chalk continues to float
4. Put the paper on the top of the water and gently press down for 1 minutes
5. Remove paper, let dry, and enjoy!
